Multiline Description in Stock Item

Introduction

By Default Tally allows only one line description in Stock Item master, this module allows user to store multiline item description in Stock Item Master. User can recall multiline description automatically in additional description of stock item during voucher entry.

Important!

As a best practice it is advisable to back up your company data

Installation

1. Copy the TCP file in Tally.ERP9 Folder.
2. Gateway of Tally → F12→ Product & Features → F4 (Manage Local TDL) → Select Yes in Load TDL on Start up and give the file name of TCP File. After pressing the Enter Key will show TDL Status which should be Active.

System requirements:

No additional hardware / software infrastructure is required for executing and operation this applications module
